Thank you Emmanuel.

Do you have concerns with groundwater in the Cannonball area? Are any residents in the area using water wells for drinking water ?

Subject: RE: Standing Rock issue

Hi Monia,

I spoke to Keith Johnson of Custer District Health Unit this morning, immediately after our discussion. His concern was that the protesters' sewage is being dumped into the Cannonball lagoon. In addition, the city is sending their sewage into the lagoon also. He said that the lagoon integrity is poor, It is leaking and seeping. He further stated that the lagoon needs to be fixed as soon as possible or stop using it for sewage disposal.

Emmanuel
